Mission: Creating Healthy Communities (CHC) is committed to preventing and reducing chronic disease statewide. Through cross-sector collaboration, we are activating communities to improve access to and affordability of healthy food and increase opportunities for physical activity where Ohioans live, work and play. By implementing sustainable evidence-based strategies, CHC is creating a culture of health.

Commitment to Equity: Health equity is achieved when all people in a community have access to affordable, inclusive, and quality infrastructure and services that, despite historical and contemporary injustices, allows them to reach their full health potential.
